PARTNERSHIP

Co-funded by the Erasmus+ Programme of the European Union

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

PRISM

A VET Toolkit Promoting Digitization in the Agriculture Industry for Sustainable Farming

Agriculture 4.0 for higher quantities of food production, use of fewer resources & lower cost.

PRODUCTS

1. Beginners Guide: for a good understanding of blending agriculture concepts with the 4th Industrial Revolution.
2. Case Studies e-book: presenting case studies of the 4th Industrial Revolution on Agriculture application across the EU.
3. Training curriculum: to enable VET trainers to educate/train farmers in modern technology.
4. e-learning platform: will contain all the project's products.

DIRECT TARGET GROUP

VET Trainers working with farmers

OBJECTIVES

To design innovative training content to promote Agriculture 4.0 in the farming and agriculture sector.

To develop VET trainers' and other stakeholders' skills in effectively train and support farmers to sustainably redefining the farming and agriculture sector based on Agriculture 4.0.

To design an Open Educational Resource (OER) for Agriculture 4.0

ACTIVITIES

TRAINING FOR VET TRAINERS

To increase the range of training abilities, skills, and key competencies of the VET trainers to enable them to train farmers and offer them a set of skills sorely needed by them to improve their professional skills to promote digitization in the agriculture sector for sustainable farming.

TRAINING FOR FARMERS

To facilitate the knowledge, skills, and key competencies increase of the farmers on Agriculture 4.0 to be well-updated in the latest technologies and intelligence and mobile-based tools used in farming and agriculture, broadening their opportunities to redefine a sustainable sector-based on Agriculture 4.0.
